UNIVERSITY OF CALIFORNIA

FORWARD

What follows is a list of current \*Industrial firms in the City of Huntington Beach, as of February 1977. This list represents an increase of some 120 new industries entering the city during 1976 alone bringing over 3,100 new jobs to the community. Three of the five industrial parks are now sold-out of land (5/77).

However, these parks are not yet built-out. As plants fill the sold but now unbuilt lots the Economic Development Department of Huntington Beach will issue addendas periodically, listing new companies moving into the city. Call or write to be added to the mailing list which will keep you current with industry in Huntington Beach.

Bill Back, Economic Development Officer  
City of Huntington Beach  
P. O. Box 190 or 2000 Main Street  
California 92648  
(714) 536-5250

The Economic Development Department also publishes lists of \*"Retail Stores" and \*"Professionals" (all disciplines.) Each May it releases the "Huntington Beach Area Inventory" which is a 40 page economic profile of the city. These publications are available year 'round.

\*We are grateful to the city's License Department for providing their latest printouts so that you may be kept current on Huntington Beach.

AN APPRECIATION

The Economic Development Department is appreciative of the assistance that the following 370 industrial firms have given the department in the compiling of information on their respective firms. We could not offer as complete a list without their kind cooperation, both in the mail survey and the phone follow-ups.

NOTE: This year's list has the added information as to whether the firm is involved in import/export activities and if they may be reached on a Los Angeles area code number (213) addition to their local code number (714).

## HUNTINGTON BEACH INDUSTRY STREET INDEX

### ALMELO LANE

17252 S I Development Co.

### ALGONQUIN STREET

16841 B Harbour Electronics

### ALVERADO DRIVE

8331 Arden Press
